

simplifying **RECYCLING**

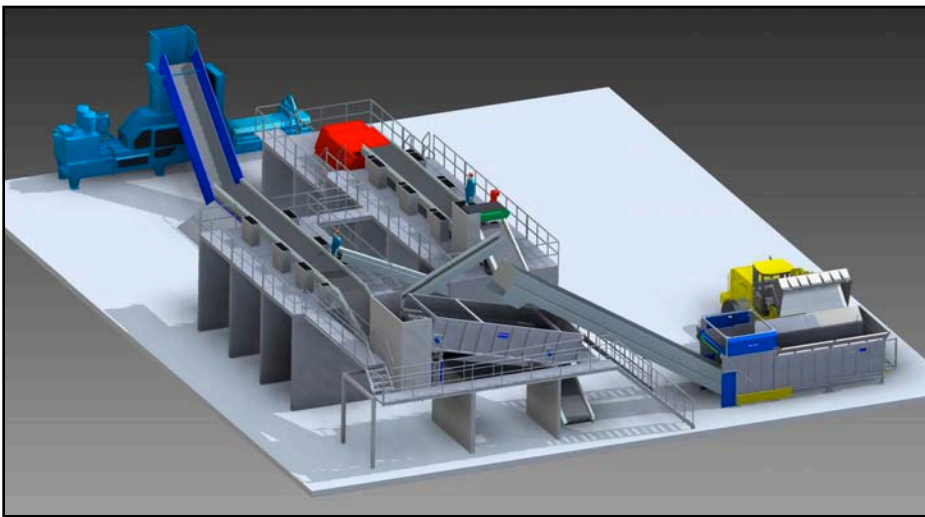

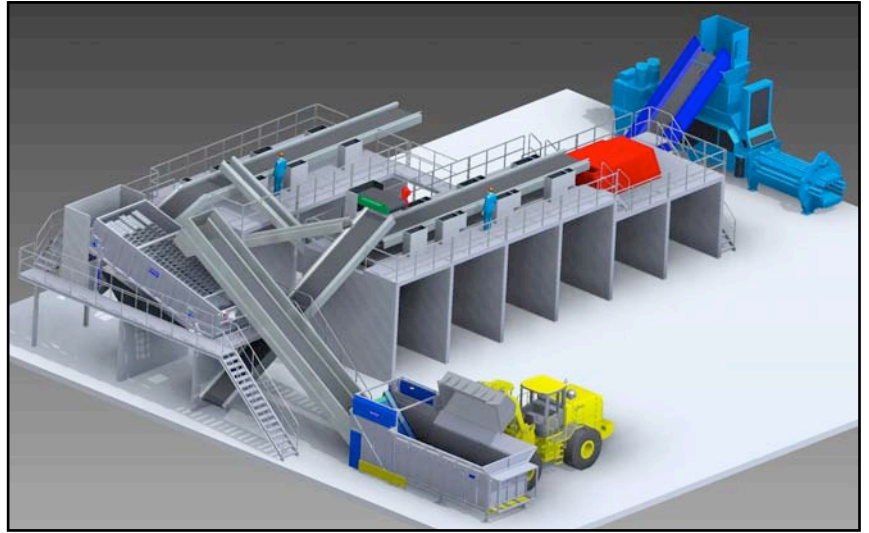

SORT 10

SINGLE STREAM
RECYCLING SYSTEM

Featuring Ballistic
Separation

FEATURES:

- Average 8 - 10 Tons Per Hour Throughput
- 5,000 - 6,000 sq. ft. Equipment Footprint
- Low Height Requirement
- Low Operational and Maintenance Cost with Integration of Ballistic Separation Technology

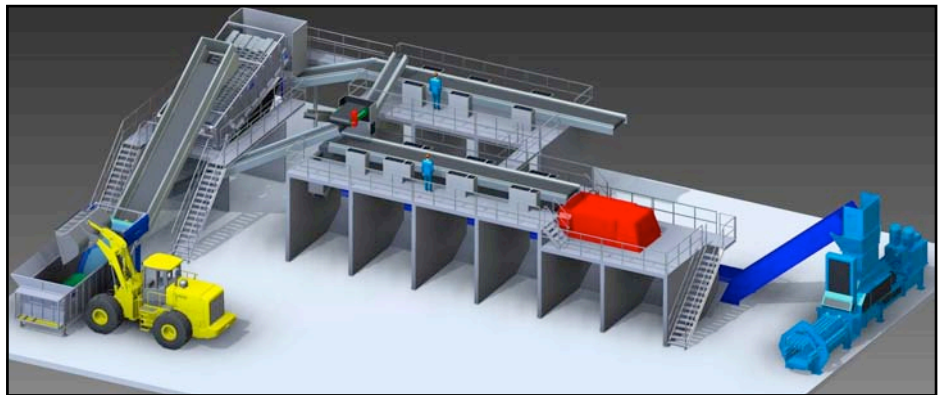

BENEFITS:

- Ability to locate system in smaller, more cost effective building
- Lower Capital Cost
- Minimal Equipment Footprint
- Ballistic Separation Technology
- Modular Construction
- Labor Saving Options

ADDITIONAL LABOR SAVING OPTIONS:

- Pre-Screening for Glass and Cardboard
- Automatic Bag Opening System
- Storage and Metering System
- Optical Sorting
- Multi-Stream Capabilities
